COMPREHENSIVE CONSTRUCTION MANAGEMENT SERVICES

MBP is a multi-disciplined construction consulting firm experienced in assisting clients in managing the construction process from initial budget, through design and construction, to successful project closeout. Established in 1989, MBP is recognized by *Engineering News-Record* as a national Top 100 construction management firm and Top 40 program management firm.

Based on the in-depth experience of the firm's professionals in both the engineering and the performance aspects of construction, MBP provides cost-effective services in both construction management and the resolution of disputes. We serve private and governmental owners, designers, contractors, developers and attorneys on a wide range of transportation, building, plant, environmental and utilities projects. We are dedicated to providing the highest quality of service and the corporate depth and diversity to fully respond to the construction needs of an expanding client base.

WE PROVIDE Construction Management Solutions THAT MAKE A DIFFERENCE.

MBP is armed with the tools necessary to help you accomplish your project goals, therefore providing more effective control over the project. We will augment your staff and act as your representative to ensure your needs are met and the project is on schedule, within budget, and risk is assessed.

We believe that our clients are partners and that together, we can achieve quality through teamwork. Our experience and expertise are the reasons why our clients are repeat clients, and collectively, we can achieve outstanding results.
